\$AVE YOUR WAY TO 15K!

Color & Save helps you save money in the simplest and most enjoyable way.

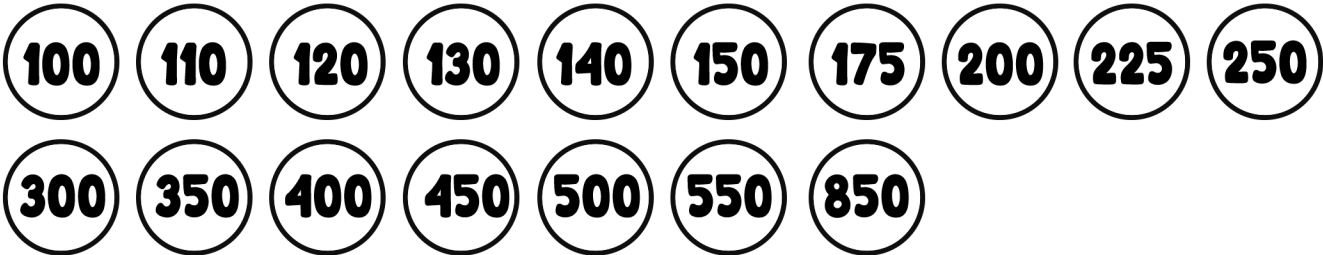

Start anywhere in the book—pick a shape with the dollar amount you want to save, tuck that amount into an envelope or savings box, then color in the shape to check it off. It's that easy.

You can begin on any page and at any time. There's no deadline, but if you'd like to stay consistent or challenge yourself, try saving a little every day. Some days you might save just \$1, and other days you might save much more—even coloring in several shapes at once. By the time you complete the book, you'll have saved \$15,000!

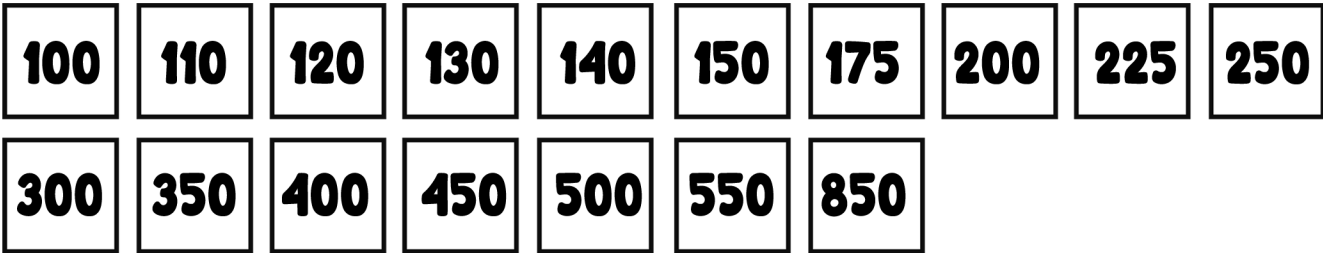

The simplest and easiest coloring book that may help grow your riches!
